Secure Connection Failed

212.179.79.236 uses an invalid security certificate.

The certificate is not trusted because it is self signed.
The certificate is only valid for sa.hadassah.ac.il

(Error code: sec_error_ca_cert_invalid)

- This could be a problem with the server's configuration, or it could be someone trying to impersonate the server.

- If you have connected to this server successfully in the past, the error may be temporary, and you can try again later.

Or you can add an exception...

Register

You are about to register to course 2009/modprog2!

You can do that in three easy steps:

1. Make sure you are registering to the right course!

2. Check your personal information on the right side.
   If some of the data there is incorrect please proceed to **Request Change** and return to this page afterwards.
   If your already submitted a request, you may proceed (there is no need to request change more than once!).

3. Finally you can Register

It is very important to request the update of your personal data, as it will be used to process your grades!
